EDUCATION

University of Pittsburgh Honors College · June 2023

B.S Computer Science 2023

GPA: 4.0

SKILLS

PROGRAMMING LANGUAGES: Java, Python, Swift, C++, HTML, CSS, Java Script, Rust

TOOLS: Xcode, Git, Illustrator, Premiere, Photoshop, Github

RELEVANT COURSEWORK

Data Structures, Introductory Programming (Python), Intermediate Programming (Java), Big Ideas in Computing and Information, Introduction to Probability, Calculus I, Calculus II, Calculus III

PROJECTS

Carbo

Carbo is a multiplayer IOS game in beta testing. This project was mostly built using swift and Xcode development tools and runs on a server built for the project.

Twittermenti

Twittermenti harnesses the power of machine learning to tell you what people feel about a topic based solely on their tweets. Uses CoreML and the Twitter API.

WhatDish

An app that can recognize whether or not an image contains a hotdog. Just like Jin-Yang's app, SeeFood from the hit television series Silicon Valley.

EMPLOYMENT

Supremeo's Pizzeria

Pizza Driver · 160 Brickyard Rd, Mars, PA

- Developed an iPhone app "PizzaBuddy" to help myself and other pizza drivers with their job. Built with Swift, Firebase, and VisionKit.
- PizzaBuddy is a social network for drivers and is equipped with helpful tools I saw a need for while working as a driver.
- Interacted with customers at the shop and delivered pizza to desired locations.

ACTIVITIES

Computer Science Club

Panther Algo Trading

Cyber Security Club
